Professional Experience

Globant, Medellín, Colombia
Senior Web UI Developer | **ARA Teams Operations**   Jan. 2025 – Dec. 2025
Responsibilities:
- Led the development of the mobile application's user interface using React Native, being solely responsible for the front-end implementation.
- Translated Figma designs into responsive and interactive UI components, ensuring a seamless user experience across devices.
- Built reusable components and custom hooks to promote code modularity and maintainability.
- Integrated navigation flows using React Navigation and implemented consistent UI elements with React Native Paper.
- Connected the application to Firestore for real-time data consumption and synchronization.
- Tracked and managed user stories using Jira, ensuring timely delivery of features and bug fixes.
- Delivered quick and effective solutions in response to evolving client requirements and scope changes.
- Maintained clean, scalable, and reusable code following best practices in mobile development.

Tools/Technologies: React Native, React Native Paper, React Navigation, Firestore, Figma.

Globant, Medellín, Colombia
Senior Web UI Developer | **RSM Task Management**   Jun. 2024 – Nov. 2024
Responsibilities:
- Designed and maintained sophisticated user interfaces with a focus on React.js and TypeScript to deliver optimal user experiences.
- Collaborated with design and development teams to build a responsive and efficient front-end architecture.
- Participated in agile sprints, utilizing Azure DevOps for task management and project tracking.

Tools/Technologies: React.js, TypeScript, Azure DevOps, Azure, Visual Studio, Material UI, Data Grid.

Globant, Medellín, Colombia
Web UI Developer | **Command Alkon**   Dec. 2023 – Jun. 2024
Responsibilities:
- Developed and maintained complex user interfaces using React.js to ensure seamless user experiences.
- Collaborated with designers and backend developers to create a cohesive and high-performing front-end.
- Participated in agile development processes using Jira Software to manage tasks and track progress. Conducted API testing with Postman and Insomnia to ensure robust integration with backend services.

Tools/Technologies: React.js, TypeScript, Jira Software, AWS, Postman, Insomnia.

Virtual Data, Medellín, Colombia
Front-End Developer   Ap. 2022 – Ag. 2023
Responsibilities:
